
10th EES Biennial Conference

EVALUATION IN THE NETWORKED SOCIETY: NEW CONCEPTS, NEW CHALLENGES, NEW SOLUTIONS

Dear colleagues,

Evaluation practice is undergoing intense transformation in a world buffeted by massive and instantaneous flows of capital, ideas, opinions and cultural communications. Global connections, instant knowledge and social networks are re-shaping evaluation agendas, methods and practices.

In this complex and volatile context the 10th Biennial European Evaluation Society Conference (Helsinki, October 2012) proposes to take stock of where the evaluation enterprise stands - and where it is going.

In line with EES values and principles we wish the Conference to be as inclusive, responsive and relevant as possible to the professional challenges evaluators face. To this end, the Conference Committee needs to know about your ideas, concerns and expectations:

- What issues, themes and sub-themes should the Conference in Helsinki address?
- What organizations and individuals should we approach to broaden and enrich the content of the Conference?
- How do you propose to contribute to the Conference?
 - o Will you submit a paper, organize a panel or prepare a poster?
 - o Would you consider chairing a session?
 - o Would you consider reviewing abstracts?

Please address your emails to R.Picciotto@btinternet.com. We very much look forward to hearing from you.

Robert ('Bob') Picciotto
