

Theory based approaches to evaluation

Lieu : École nationale d'administration publique - Montréal
Adresse : 4750, avenue Henri-Julien, Montréal (Québec) H2T 3E5
Date : 18 octobre 2018
Langue : Anglais
Heure : À partir de 08:30 jusqu'à 16h00
Prix : Le paiement se fait sur place ou par la poste

Quels sont les objectifs de la formation?

- À venir

À qui s'adresse-t-elle?

- Aux gestionnaires ayant des responsabilités en évaluation de programme;
- Aux étudiants des cycles supérieurs qui désirent se familiariser avec les notions de base;
- Aux personnes nouvellement impliquées dans le domaine;
- À toute personne intéressée à remettre à jour ses connaissances.

Quel est son contenu?

This approach builds strongly on the Logic Model/ Theory of Change for a program.

In the workshop we will identify how program planners/evaluators use the Theory of Change/ Logic Model to explicitly identify expectations for program outcomes. This will include the use of proven theoretical models and published literature/ reports that support and have proven to produce the desired outcomes. We will touch upon program fidelity as an essential concept and suggest how attribution of results can take place. Examples from past evaluations will be cited.

Quel est son coût?

- Professionnel non membre de la SQEP : 350\$, incluant l'adhésion à la SQEP.
- Professionnel membre de la SQEP : 300\$.
- Étudiant non membre de la SQEP : 230\$, incluant l'adhésion à la SQEP.
- Étudiant membre de la SQEP : 200\$.

Les coûts incluent le matériel didactique. Lorsque nous recevrons votre inscription, nous vous ferons parvenir une facture pour le paiement.

Qui est le formateur?

Harry is the Director of Harry Cummings and Associates (HCA) which was established in 1997. Harry has a Masters and Ph.D. in Geography from Clark University in Massachusetts and a B.A. (HON) Geography from Western University in London, Ontario. He is a Registered Professional Planner (RPP) and a Credentialed Evaluator (CE). He speaks English, Indonesian and French fluently.

Harry worked in Ottawa for the International Development Research Center and the Canadian Council on Rural Development. He followed this with a position with the University of British Columbia, based in Sulawesi, Indonesia where he directed approximately 20 professional Indonesian and Canadian Planners in the development of a regional development strategy for the island of Sulawesi, Indonesia. Following this assignment, he returned to Edmonton, Alberta where he worked as a private consultant

on regional economic development issues with Alberta, the Federal Government, Indigenous Metis and First Nation Communities.

From 1982 to 2016 he taught International and Canadian Rural Planning as a Professor at the University of Guelph including courses on Planning, Evaluation, Regional Economics, International Rural Development Planning, Research Methods and Rural Policy.

He has presented papers and published on Evaluation and Rural Planning and Development in conferences in Canada, the USA and Europe.

Harry is Past President of the Canadian Evaluation Society with its 1600 members, nationwide.
